

GOAT PELLETS

PRODUCT DESCRIPTION:

WSF Goat Pellets are a type of livestock feed, typically formulated as a nutritious, balanced diet for goats of all ages. They are designed to provide essential nutrients like protein, energy, vitamins, and minerals. These pellets are generally made from a blend of grains, by-products, and added vitamins and minerals, and are often used as a supplement to hay or pasture grazing.

FEEDING RECOMMENDATIONS:

Feed at up to 250 grams per day. Transition onto Goat Pellets by starting at 50 grams per day and working up to 250 grams over 10-14 days. Ensure equal access to all animals to reduce risk of gorging.

WSF Goat Pellets should be fed alongside an adequate amount of forage. Ensure drinking water is available.

STORE IN A COOL DRY PLACE.

SUITABLE AS A FEED FOR GOATS ONLY.

INGREDIENTS SELECTED FROM:

Barely, Wheat, Wheat by-products, Oilseed meals and by-products, Palm Kernel, Molasses, Minerals (including Lime, Dicalcium Phosphate, Magnesium, Salt), Vitamins and Trace Minerals, Flavouring.
