GOLDEN LAYER PELLETS

PRODUCT DESCRIPTION:

WSF Golden Layer Pellets are a type of chicken feed specifically formulated to meet the nutritional needs of laying hens. They are designed to support healthy egg production and overall hen well-being.

PURPOSE AND BENEFITS:

- **Nutritionally Balanced** - Golden Layer Pellets are designed to provide hens with the necessary protein, energy, calcium, and other vital nutrients.
- **Egg Production** - They support hen health and egg production from the point of lay onwards.
- **Gut Health -** Some formulations may include probiotics and prebiotics to promote healthy gut flora.
- **Digestive Support -** May contain functional fibres to promote efficient digestion.

FEEDING RECOMMENDATIONS:

Allow ad-lib access to WSF Golden Layer Pellets from first lay (around 16-19 weeks of age). Expected feed consumption per hen of around 125g per day.

WSF Golden Layer Pellets should be fed alongside ad-lib Oyster Shell Grit. Ensure drinking water is always available. Also store in a cool, dry place.
